burster – Your Expert in Measuring Mechanical Quantities

Sensors

LOAD CELLS
- Measuring ranges from 0...2.5 N up to 0...2 MN
- Excellent accuracy up to ± 0.05 % F.S.
- Compact, robust, user-friendly installation, manifold options available

TORQUE SENSORS
- Measuring ranges from 0...0.005 Nm up to 0...50000 Nm
- Highest accuracy for rotating and static applications
- Options with integrated drive, angle and USB output

DISPLACEMENT SENSORS
- Measuring ranges from 0...1 mm up to 0...2000 mm
- Accuracy up to ± 0.5 µm
- Output 0...5/10 VDC, 4...20 mA, USB and TTL

PRESSURE TRANSMITTERS
- Measuring ranges from 0...35 mbar up to 0...5000 bar
- Accuracy up to ± 0.05 % F.S.
- Output 0...5/10 VDC, 4...20 mA, USB

OEM & SPECIAL SENSOR SOLUTIONS
Your Application + Our Solution = Your Success
Competent, reliable, high-quality and precise.
Give us a challenge – We’re passionate about supporting you with developing customized solutions.
